SUMMARY

Aspiring Data Analyst with a strong foundation in SQL, Excel, Power BI, and Python, supported by hands-on training and real-world project experience. Skilled in data cleaning, analysis, visualization, and dashboard development to turn data into clear and useful insights. Eager to apply my analytical skills in a professional environment, learn from experienced professionals, and grow as a Data Analyst while contributing meaningfully to organizational goals.

EDUCATION

Bachelor of Engineering - Computer Science | CGPA: 8.5

2021-2025

Mysuru Royal Institute of Technology, Mandya

SKILLS

Microsoft Excel: Pivot Tables, VLOOKUP, Charts, Graphs

SQL: Joins, Subqueries, Window Functions, CTEs

Power BI: Dashboard Development, KPI Reporting, DAX, Power Query

Python: Pandas, NumPy, Matplotlib, Seaborn, Machine Learning (basic models)

Tools: MySQL Workbench, Power Automate, VS Code, GitHub, Jupyter Notebook

Soft Skills: Communication, Teamwork & Collaboration, Problem Solving, Time Management

PROJECTS

Sales Performance Analysis | Tools: SQL, Excel, Power BI | [GitHub](#)

- Analyzed 10,000+ sales records to identify revenue trends, regional performance, and top-selling products.
- Cleaned and prepared raw sales data using SQL and Excel by handling missing values and removing duplicate records.
- Developed interactive Power BI dashboards to track key KPIs and support data-driven sales decisions.

Credit Risk Analysis & Prediction | Tools: SQL, Excel, Power BI, Python | [GitHub](#)

- Analyzed customer financial data to identify risk factors affecting loan repayment behavior.
- Standardized and prepared datasets using SQL and Excel to ensure consistency and reliability for analysis.
- Performed exploratory data analysis (EDA) using Python and created Power BI dashboards to visualize customer risk patterns.

Customer Churn Prediction | Tools: SQL, Power BI, Python | [GitHub](#)

- Analyzed customer data to identify key factors contributing to churn and retention challenges.
- Cleaned and transformed datasets using SQL and Python to improve data quality and analysis readiness.
- Built Power BI dashboards to visualize churn trends and support customer retention strategies.

TRAINING

Data Analytics Training Program | Apponix Academy, Bangalore | 2025 - 2026

- Completed hands-on training in SQL, Excel, Power BI, and Python, applying skills to real-world datasets.
- Built end-to-end analytics projects and interactive dashboards involving data preparation, EDA, visualization, and business reporting.

CERTIFICATIONS

Data Analytics Certification | Apponix Academy | [View Certificate](#)

Data Analysis Using Python | IBM (Credly Badge) | [View Certificate](#)

Data Analytics Job Simulation | Deloitte Australia (Forage) | [View Certificate](#)
